Presentation letter and acceptance document from the center where the research is being carried out:

We do not have a model for these documents.

Only one document (cover letter) will be required if the entity receiving the grant and the research location coincide.

Otherwise, we would need two documents. For example: Research center of University X that is going to develop its research in Hospital Y, so we would need the letter of introduction of University X and the document of acceptance of the research of Hospital Y.

Certification of the center's ethical committee:

If you do not yet have the certificate, you can include proof that you have requested it. In the event of not incurring in any of the situations indicated in **Royal Decree 223/2004** of February 6, 2004, this document would not be necessary and you could send a document indicating the reasons why you are exempted from presenting this documentation. Therefore, we will need you to send us the application or, if you do not need one, a statement indicating that it is not necessary.
